

Having Your Say

Class: 1A2

Lesson: Refraction

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

yes, everyone was focused & paying attention.

2. Was the lesson enjoyable?

It was more enjoyable than normal because we did an experiment.

3. Was the pace of the lesson right?

Yeah, everyone understood what they learnt and we got to write the answers to what we learnt.

4. Give an example of something you learned that you didn't know before the lesson

that light bends as it goes through glass.

5. Did you feel engaged and have a say in your learning?

yeah, Mr Kelly chose random people to answer questions!

6. Were the questions from the pupils answered in the lesson?

Yeah.

Having Your Say

Class: 1A2

Lesson:
Refraction

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

Yes everyone was listening well.

2. Was the lesson enjoyable?

Was fun doing the light experiment but there was too much ~~talking~~ ~~and~~ boring listening!

3. Was the pace of the lesson right?

Mostly, but we had to rush answering the questions.

4. Give an example of something you learned that you didn't know before the lesson

That light bends when it travels through glass.

5. Did you feel engaged and have a say in your learning?

Yes because Mr Kelly chose people to answer and it wasn't the same people every time.

6. Were the questions from the pupils answered in the lesson?

Yes, we answered all questions that were on the board.

Having Your Say

Class: 1A2

Lesson: Refraction

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

Yes, lots of different pupils answered Mr Kelly's questions.

2. Was the lesson enjoyable?

It was better than our normal lessons because we got to do more interaction.

3. Was the pace of the lesson right?

Yes, everyone understood what we learnt.

4. Give an example of something you learned that you didn't know before the lesson

I have learnt that light bends when put through glass.

5. Did you feel engaged and have a say in your learning?

Yes, Mr Kelly chose different people to answer questions.

6. Were the questions from the pupils answered in the lesson?

Yes.

Having Your Say

Class: 1A2

Lesson: Refraction

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

Yes, everyone was focused.

2. Was the lesson enjoyable?

Not really but I learned some new facts.

3. Was the pace of the lesson right?

Yes.

4. Give an example of something you learned that you didn't know before the lesson

I learned what refraction is used in.

5. Did you feel engaged and have a say in your learning?

A tiny bit, I had an answer to one of the class questions but I didn't get to say it.

6. Were the questions from the pupils answered in the lesson?

Yes I think so.

Having Your Say

Class: 1A2

Lesson: *redaction*

Teacher: Mr. *Kelley*

1. Was there good communication between teacher and pupils? *Not really because we weren't talking that much.*
2. Was the lesson enjoyable? *Yes*
3. Was the pace of the lesson right? *No it was rushed*
4. Give an example of something you learned that you didn't know before the lesson *right words through class*
5. Did you feel engaged and have a say in your learning? *Yes*
6. Were the questions from the pupils answered in the lesson? *No*

Having Your Say

Class: 1A2

Lesson: Science refraction

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils? Yes because we got to ask and answer questions
2. Was the lesson enjoyable? YES!! because we got to do an activity
3. Was the pace of the lesson right? yes it wasn't too fast or too slow
4. Give an example of something you learned that you didn't know before the lesson
refraction as light in that you can use the glasses
5. Did you feel engaged and have a say in your learning? yes because I got to ask and answer questions
6. Were the questions from the pupils answered in the lesson? Yep!

Having Your Say

Class: 1A2

Lesson: Refraction of Light

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

Yes, Mr Kelly was good at communicating throughout the lesson.

2. Was the lesson enjoyable?

Yes, because we done an experiment activity at the start and there was also a bit of writing so that we had something to look back on.

3. Was the pace of the lesson right?

Yes

4. Give an example of something you learned that you didn't know before the lesson

How Refraction of light works

5. Did you feel engaged and have a say in your learning?

Yes

6. Were the questions from the pupils answered in the lesson?

Yes

Having Your Say

Class: 1A2

Lesson: Refraction.

Teacher: Mr Kelly

1. Was there good communication between teacher and pupils?

Yes, because there was lots of talking going on.

2. Was the lesson enjoyable?

Yes, because we done a Light experiment and also done a Little bit of Writing.

3. Was the pace of the lesson right?

Yes.

4. Give an example of something you learned that you didn't know before the lesson

Don't know

5. Did you feel engaged and have a say in your learning?

Yes.

6. Were the questions from the pupils answered in the lesson?

Yes.

Having Your Say

Class: 1a2

Lesson: Refraction

Teacher: Mr Kelly

1. Were the instructions clear?

Yes I understood everything except from the "normal" line we had to draw.

2. Did the teacher cover what you were expecting from the lesson?

Yes.

3. Were the teacher and pupils enthusiastic?

I think most people were.

4. Was everyone respectful to each other?

I think most people were.

5. Was the lesson interactive?

Yes because everyone was doing something.

6. Do you feel confident after the lesson to explain what you've learned to someone else?

I think I could answer most things.

Having Your Say

Class: 1401

Lesson: Refraction

Teacher: Mr Kelly

1. Were the instructions clear?

I didn't think that the instructions were clear
~~these~~ he did really said fully..... but some of
the instructions

2. Did the teacher cover what you were expecting from the lesson?
yes a bit more than I thought. ^{were clear the}

3. Were the teacher and pupils enthusiastic?

Yes and no I and other pupil needed help on one of the tasks...

4. Was everyone respectful to each other?

I think everyone was respectful.

5. Was the lesson interactive? ??

6. Do you feel confident after the lesson to explain what you've learned to someone else?

I don't feel fully confident
but I would like to do the lesson
again

Having Your Say

Class: 1A2

Lesson: Refraction

Teacher: Mr Kelly

1. Were the instructions clear?

Yes they were clear but could be explained a bit more.

2. Did the teacher cover what you were expecting from the lesson?

Yes.

3. Were the teacher and pupils enthusiastic?

Sometimes because some of pupils might not like the topic.

4. Was everyone respectful to each other?

Yes because nobody was shouting out or speaking while other people or the teacher was talking.

5. Was the lesson interactive?

Yes because we got to use some objects to show light going through glass.

6. Do you feel confident after the lesson to explain what you've learned to someone else?

Yes I do.

Having Your Say

Class: IA2

Lesson: Refraction

Teacher: Mr Kelly

1. Were the instructions clear? Sort of but I found some of it confusing.
2. Did the teacher cover what you were expecting from the lesson?
of added Yes but I thought he would a bit more information into it.
3. Were the teacher and pupils enthusiastic?
Yes we were all enthusiastic.
4. Was everyone respectful to each other?
Yes! But I didn't really watch anyone.
5. Was the lesson interactive?
~~It~~ most of the time.
6. Do you feel confident after the lesson to explain what you've learned to someone else? Sort of but I found some of it confusing so maybe I wouldn't be able to explain everything.

Having Your Say

Class:

Lesson:

Teacher: Mr Kelly

1. Were the instructions clear?

yes

2. Did the teacher cover what you were expecting from the lesson? yes

3. Were the teacher and pupils enthusiastic?

yes

4. Was everyone respectful to each other?

yes

5. Was the lesson interactive?

yes

6. Do you feel confident after the lesson to explain what you've learned to someone else?

yes

Having Your Say

Class: 1A2

Lesson: Refraction

Teacher: Mr Kelly

1. Were the instructions clear?

yes because if it didn't work at first he explained it differently

2. Did the teacher cover what you were expecting from the lesson?

yes and more because we done a simple experiment and then he explained it.

3. Were the teacher and pupils enthusiastic?

yes because the teacher was very helpfull and the pupils really tried.

4. Was everyone respectful to each other?

yes because no one was shouting at each other.

5. Was the lesson interactive?

yes because there was a bit of explaining and during the experiment.

6. Do you feel confident after the lesson to explain what you've learned to someone else?

No because it was only just the start but maybe a little bit about it.

Having Your Say

Class: 1A2

Lesson: refraction

Teacher: Mr. Kelly

1. Were the instructions clear?

yes

2. Did the teacher cover what you were expecting from the lesson?

Yes but there is still more we could learn

3. Were the teacher and pupils enthusiastic?

Yes

4. Was everyone respectful to each other?

I dont know

5. Was the lesson interactive?

Yes because we got to ~~see~~ See how it bends

6. Do you feel confident after the lesson to explain what you've learned to someone else?

NO because the lesson was rushed

Having Your Say

Class: 1AZ

Lesson: refraction

Teacher: mr nelly

1. Were the instructions clear?

yes

2. Did the teacher cover what you were expecting from the lesson?

yes but it was a bit rushed and we could do more

3. Were the teacher and pupils enthusiastic?

yes

4. Was everyone respectful to each other?

~~yes~~
I don't know

5. Was the lesson interactive?

yes because we got to send light and to see how

6. Do you feel confident after the lesson to explain what you've learned to someone else?

no the lesson was rushed

Having Your Say

Class: 1A2

Lesson: refraction

Teacher: Mr Kelly

1. Were the instructions clear?

Yes because the way he explained it was very clear

2. Did the teacher cover what you were expecting from the lesson?

Yes because he didn't have a lot of time but he explained it very well

3. Were the teacher and pupils enthusiastic?

Yes because the teacher was very helpful and enthusiastic in the way he explained refraction.

4. Was everyone respectful to each other?

5. Was the lesson interactive?

6. Do you feel confident after the lesson to explain what you've learned to someone else?
